TURKISH BATH SÜLEYMANIYE HAMAMI

HISTORY

The Suleymaniye Hamam was designed and built between 1550 and 1557 by Sinan. He made over four hundred buildings during his lifetime, the hamam being one of the most famous. Sinan was also the architect of the Suleymaniye Mosque.

Our hamam is over 450 years old and was visited many times by the Suleyman Sultan. The sultan always preferred to situate himself in the same corner of the hamam.

INSTRUCTIONS

You may change your clothes and keep them locked in one of our dressing rooms. There, we provide women with a bikini and shorts and men with a bath towel. The key to your private dressing room will remain on your wrist at all times while you enjoy the hamam.

Our hamam is mixed, serving both men and women simultaneously.

THE PLEASURE HAMAM IN TWO SECTION

1. You will first be able to enjoy the hot room, where you will lie on a hot marble slab in the center of the room for about 40 minutes. This will allow your body to sweat and release toxins. If you have any health problems that we should be aware of, kindly inform us before entering the hamam.

After your time on the marble slab, our specialized staff will call you by your hotel name and proceed to give you a body exfoliation (peeling) followed by a soap massage and washing service. We work only with male masseurs at this hamam.

2. A member of our staff will dry you off in a specialized way after you are washed. After drying off, you can rest in another room where you can relax and enjoy a drink for an extra charge. You will be able to pay for your drinks upon exiting the hamam.

- * It is not allowed to take pictures at the washing area.
- * There is no money back.
